ACAP PROFILE for Robert Berman

Professional Background

I have been involved with medical billing and consulting for more than 30 years. My academic training includes a Masters Degree in Healthcare Administration from Baruch College/Mt Sinai School of Medicine. My real-world experience has included positions as the Administrator of physician practices at Beth Israel Hospital/NY as well as Practice Administrator to a number of high-volume independent physician and group practices in New York City. For the last 25 years I have owned and operated a medical billing company that delivers billing and collection services to physicians in the NY metropolitan area.

What Qualifies me to be a CAP?

All of my professional experience has required and focused on hands-on work with medical claims submission and processing. I have extensive experience with Medicare, Medicaid, commercial insurance carriers, workers compensation carriers, and auto medical claims carriers. In particular, my work has required understanding the peculiarities and idiosyncrasies inherent in medical coding and billing. I not only understand how medical services are billed which translates into knowing how to detect errors and unethical billing practices, but also how to successfully reduce associated medical costs.

How Long Have I Been a CAP?"

I have been providing claims assistance for all of my 30 year career.

Services I Provide

Medical claims/bill/EOB review and analysis
Medical claims/bill disputes and denials
Medical claims/bill negotiations and resolution
